studiodosi

Via R. Murri 21, 48100 Ravenna

[ENG]

The firm, settled in 1999 and based in Ravenna, north east of Italy, works mainly in the fields of architectural and urban planning, with particular research of urban requalification and redevelopment, industrial requalification and new premises, residential/hotel design and museum planning. Other activities involve planning of public and social spaces, within urban developments or sub-urban new areas.

Many national and international competitions have been carried on, with excellent results (first prize and other awards winning) such as "New mixed-use complex in Martellago, Venice, Italy", "Requalification of part of the city of Bellaria Igea Marina, Rimini, Italy", "Environmental of industrial ENI oil premises in Viggiano, Potenza, Italy", "Italian small rail-stations, by Italian Railways Company, all over Italy" and many others.

The firm is conducted by Stefano Dosi, licensed engineer, member of several committees (among them one for Quality in Architecture and Landscape in public administrations, and for Young Engineers in Engineers' Association). As a professor of Bologna University, since 2002, he is engaged in international multidisciplinary work experiences in Bosnia (Tuzla), and nowadays developing different kind of projects in Serbia. He wrote several books about professional and technical educational experiences, while some of his works have been published in Italian papers and reviews.

The firm is formed with Claudia Cirulli, architect, and takes advantage of hi-profile specialized partners, engineers & architects, during the past three years, Andrea Baiocchi, Andrea Bugli, Gioia Guidazzi, Francesca Lattuga, Lorenzo Lisotti, Francesco Lorenzi, Marco Manca, Lucia Moretti, Antonio Mularoni, Giulia Paffile, Roberta Rossi. While other technical complementary consulences are held by resident partners (structural & plan engineering: 3TI Italia s.r.l. & Insinga s.r.l. - safety: CREA s.r.l. - landscape: Giuseppe Orselli - architectural composition & research: Alessio Erioli - bioarchitecture: IGEAM s.r.l. etc).

Professional skills are brought also through institutional bodies improving architectural arguments, in order to achieve results in term of quality and wellness applied to public needs.

Current activities: oil plant chemical premises environmental mitigation for ENI spa in southern Italy, industrial premises for Hear spa & Ecofuel spa in Ravenna, urban and detailed planning of mixed use areas in Ravenna, offices and residential building near Pesaro, Ravenna Port Authority commercial premises, several houses renewal & restructuring in Ravenna historical city centre, and new residential low-energy premises in Belgrade.

Working also on tenders and architectural competitions in Italy and abroad, together with selected partners.

[ITA]

Lo studio, fondato nel 1999 a Ravenna dall'ing. Stefano Dosi, si occupa principalmente di progettazione e ricerca nella composizione architettonica applicata ai campi delle riqualificazioni urbane, delle realizzazioni industriali, immobiliari, museali ed in generale degli spazi pubblici e di relazione.

Numerosi sono i concorsi internazionali e nazionali di architettura e progettazione ai quali lo studio ha partecipato, per la maggior parte in veste di capogruppo, ed altrettanto numerosi i successi ottenuti in tali occasioni (fabbricato a Martellago (VE), inserimento paesaggistico centro ENI a Viaggiano (PZ), riqualificazione urbana di Bellaria Igea Marina (RN), piccole stazioni di RFI ed altri).

Parallelamente all'attività principale, lo studio svolge attività di ricerca attraverso l'ing. Stefano Dosi, presso l'Università di Bologna, Facoltà di Ingegneria Edile/Architettura (con docenze a contratto di Composizione Architettonica III dal 2002) che ha portato a esperienze di lavoro internazionali (Bosnia, Serbia), sia l'istituzione che l'attività professionale dello studio.

L'attività viene portata anche a livello delle istituzioni locali intervenendo attivamente nel dibattito/controllo architettonico attraverso la presenza attiva nelle commissioni edilizie di alcuni comuni della provincia di Ravenna, nelle giurie di alcuni concorsi e nell'operato delle commissioni interne dell'Ordine degli Ingegneri di Ravenna. A cura di Dosi sono inoltre stati editati alcuni libri riguardanti esperienze nel campo della riqualificazione urbana anche internazionale (ad esempio su Ravenna e su Tuzla, Bosnia, ma anche sul turismo nel bacino adriatico) e frequente è la presenza sulle riviste del settore.

Lo studio è composto dall'arch. Claudia Cirulli e da altri collabori. Tra questi gli ingegneri/architetti Andrea Baiocchi, Andrea Bugli, Gioia Guidazzi, Francesca Lattuga, Lorenzo Lisotti, Francesco Lorenzi, Marco Manca, Lucia Moretti, Antonio Mularoni, Giulia Paffile, Roberta Rossi.

Collaborazioni, consulenze continuative e partnerships tecniche e commerciali riguardano i campi della ricerca architettonica (prof. G.Praderio e prof. A.Erioli) paesaggio (dott. agr. Giuseppe Orselli), strutture (Insinga srl, 3TI Progetti Italia srl, ing. E.Giambastiani), impiantistico (3TI Progetti Italia srl, CREA srl), della sicurezza (CREA srl) ed infine della sostenibilità (IGEAM srl).

Attualmente i lavori su cui lo studio si misura sono: attività di progettazione per immobiliare a Belgrado (Serbia), per riorganizzazione e nuove addizioni di stabilimenti industriali ENI spa, Hera spa ed Ecofuel spa in Ravenna e Viaggiano (Potenza), progetti unitari di aree miste (industriali/artigianali/residenziali) in Ravenna e ristrutturazioni di alcuni edifici residenziali in Ravenna e provincia, progettazione di uffici, residenze ed area artigianale nella provincia di Pesaro.

C.F. DSOSFN70P19H199D
P.IVA 01469860397

Born in Ravenna, Italy, on 19th September 1970, after scientific studies, graduated in Civil Engineering at University of Bologna in July 1998. Since October 1998 is licensed engineer in Europe (authorised for architectural, structural and plant projects of every size and typology). Served military services in Fire Brigade Corps at the end of 1998. Joined in Association of Engineers ("Ordine degli Ingegneri") in 19/02/1999, with n.1161.

Since 1999 is a freelance professional working mainly with Teprin Associati (Aymonino, Baldisserri e Sarti), a well knowk architects & engineers firm in Ravenna, for architectural and urbanistic planning, both with national and international engagements.

Since late 1999 is cooperating with Crea s.r.l. an engineer company in Ravenna, certified ISO 9001:2000, which core activities are health, environmental, safety analyses and plans, together with other engineering sevicees (fire plans, electrical plants for industry, transport of dangerous material, professional trainings etc). In 2000 attends a "Quality system (ISO 9001) for professional firms" course in Faenza (Ravenna).

From late 1999 to 2002, engaged as Assistant Professor at University of Bologna, Department for Architecture and Urban Planning, Faculty of Engineering, Prof. Eng. G. Praderio, Courses of Architecture and Architectural Composition II and III. In 2002 became Professor at University of Bologna, Department for Architecture and Urban Planning, Faculty of Engineer and Architecture, Course of Architecture and Architectural Composition III and workshops. He is also co-responsible of several degree thesis.

In 2002 he settled his own professional firm "StudioDosi" in Ravenna, via Romolo Murri 21, developing plans and projects with full-time or temporary collaborators, University professors, architects, with particular interest for architectural research, sustainability and multidisciplinary approaches to buildings. In 2004 architect Claudia Cirolli joined "StudioDosi". The main aim of the firm is to give architectural services with typical characteristics of engineering approach to the project, in the specific fields of urban (hotellerie, residential, offices and public area and buildings) and industrial premises (toward and in junction with CREA s.r.l. and its hi-profile clients such as ENI s.p.a., Agip s.p.a., EcoFuel s.p.a., Gas Natural, Hera s.p.a. and many Italian public administrations)

Since 2000 became member of the Young Engineers Committee at Engineers Association, with aims of promotion, organization of technical seminars and workshops.

Since 2004 became a member of Committee for Architectural and Environmental Quality (COAP) for the cities of Brisighella, Casola Valsenio and Riolo Terme, near Ravenna. The task is to check quality and act as highest supervisor of all submitted projects dealing with urban, rural and natural environments and constructions.

From 2006 to 2008 is coordinator of an international workgroup, as leading professor of Bologna University, together with Provincia di Ravenna, Tuzla Municipality (BiH) and DAPT Bologna University, with the aims of requalification of the city of Tuzla, financed by EU fund Interreg IIIA AdriaLink.

In 2007 he became Partner in CREA s.r.l. with senior consultant role for building and industrial activities.

In 2007 made the first residential projects for a Belgrade building company (Kuće Beodom d.o.o.), four buildings for a total of 23 apartments with low energy, low costs, hi legality, quality design attitudes. In collaboration with a local licensed architect and engineer. Now that permission to build is obtained, construction started. Then other plans for new Belgrade premises will start soon. The aim is to settle a branch of StudioDosi in Belgrade merging with local partners.

In 2008, after several market researches, defining potential collaborators, four Italian engineers company (HSE and construction fields) StudioDosi, Crea srl, Techno srl and Faentia Consulting srl, joined to start a Serbian engineers company "Život HSE d.o.o." with the aim to collaborate with local company toward international clients and investors in the HSE fields of activities. Significant memorandum of cooperation have been signed with Novi Sad Safety Institute and

University of Niš in order to be immediately operative. Company is now officially settled in Belgrade and Stefano Dosi is nominated as a director.

Nowdays Miss. Milica Zotovic, serbian from Belgrade living in Italy, joined the firm as an advisor for all operation regarding Serbia. This means we are now able to have full technical and commercial relationship with Serbian partners and investors in that country.

In October/November 2008 StudioDosi will be present at BelRE expo, the international Belgrade real estate expo, with a 20 sqm stand in order to meet investors & clients and have business to business meeting, enlarging its presence in the country architectural services market.

Built, Building and now planning

- 1998/2000 Residential buildings in Ravenna for ImmGeo srl, over 4.000 sqm total, projects, built.
- 2000 Restructure of urban villa in Lugo, Ravenna, Italy, € 110.000, projects and supervision of works, built.
- 2000/2003 Masterplan for Sport Center in Porto Fuori, Ravenna, Italy, 158.000 sqm. Projects together with L. Sarti, Teprin Associati Ravenna.
- 2000/2002 All suites luxury Hotel-Residence by the sea in Riccione, Rimini, Italy, 990 sqm, € 1.800.000, projects and supervision of works, built.
- 2001/2002 Masterplan and for residencial premises area in Bagnacavallo, Ravenna, Italy, 2.900 sqm, feasibility studies and projects.
- 2001/2005 Private residential villa in Russi, Ravenna, Italy, € 490.000, projects.
- 2001/2003 Residential premises in Lavezzola, Ravenna, Italy, 3.200 sqm , feasibility studies & projects.
- 2001 Restructure of historical building as a multi-storey restaurant in Ravenna city center, Italy, feasibility studies and projects.
- 2001/2002 Restructure of historical building as private residence in Ravenna city center, Italy, € 250.000, feasibility studies, projects and supervision of works.
- 2001/2003 Restructure of two residential buildings with several apartments in Bagnacavallo, Ravenna, Italy, 520 sqm total, projects and supervision of works, built.
- 2002/2004 Restructure, enlargement and refurbishment of an Hotel by the sea, in CasalBorsetti, Ravenna, Italy, € 550.000, projects and supervision of works, built.
- 2004 Restructure of three residential buildings in Bagnacavallo, Ravenna, Italy, 690 sqm total, € 450.000, projects and supervisions of works, built.
- 2004/2005 Restructure, refurbishment and enlargement of offices building in industrial premises called "IRE facility" in Ravenna for Hera spa, project and supervision of works, under development.
- 2004 Projects for thermo-electrical industrial premises in Ravenna for EniPower spa (Eni group) with CREA srl, projects and supervision of works, built.
- 2004 Feasibility studies and planning of a building for 7 luxury flats in Forli, Italy.
- 2005 Projects for industrial chemical premises in Ravenna for Ecofuel spa (Eni group) with CREA srl, civil and structural planning, built.
- 2005 Feasibility studies and planning of building for new Ecofuel spa (Eni group) headquarter in Ravenna, Italy, € 400.000, under development.
- 2005 Fine researches and expert's report for ecclesiastic historical buildings "Eremo di Tizzano" (XVII century) in Casalecchio near Bologna, Italy.
- 2005/2006 Large scale landscape design and environmental requalification for Eni spa industrial & chemicals premises in Viggiano (Potenza), Basilicata, southern Italy, € 5.855.048, projects and supervision of works, under development, partially built.

- 2006 Several projects of different typologies for industrial premises in Ravenna for Hera spa, with CREA srl, projects and supervision of works, under constant development
- 2006 New Lazzari srl production & offices headquarter and other residential buildings facing Conca river, in Mercatino Conca, Pesaro, Italy. More than € 800.000, projects and supervision of works, partially built.
- 2006/2007 Transformation and enlargement of Hotel in Cesenatico, Forlì-Cesena, Italy. € 1.200.000, feasibility studies & projects.
- 2006/2007 Restructure, refurbishment and enlargement of an Hotel by the sea in Marina Romea, Ravenna, Italy. Feasibility studies & projects. Still under development.
- 2006/2007 Transformation, refurbishment and renewal of an Hotel near the sea in Marina Romea, Ravenna, Italy, feasibility studies & projects.
- 2007/2008 Requalification of cruise terminal in port of Ravenna, Italy, for T&C srl and Port Authority of Ravenna, projects and supervision of works, under construction.
- 2007 Restructure & interior design of a 170 sqm apartment in Ravenna, Italy, projects.
- 2007 Restructure & interior design of two apartments in Ravenna historical city centre. Projects and supervision of works, under development.
- 2007/2008 Restructure & interior design for a small 150 sqm professional-training center for IAL Campus Emilia Romagna in Ravenna, Italy. Projects and supervision of works, under development.
- 2007/2008 Masterplan and detailed planning for industrial-mixed use premises for Quick srl in Ravenna, Italy, 47.000 sqm, feasibility studies, projects and supervision of works, under development.
- 2007/2008 Feasibility studies, preliminary and executive projects of 4 buildings for 24 flats, 1.800 sqm, in Belgrade (Municipality of Zvezdara), Serbia. Building started on May 2008.
- 2008 Structural design of photovoltaic sun-trackers field of 3,3 hectares, for SunPower Corporation, Italian branch, in Tolentino, Marche, Italy.
- 2008 Feasibility studies, preliminary and executive projects of 2 buildings, 1.650 sqm, in Belgrade, Serbia.
- 2008 Integrated projects, urban planning services and other complementary engineering services for Italgas Spa real estate properties all over Italy (new headquarters of Arma di Taggia (IM), upgrading of the Savona headquarter, various interventions in Venice Santa Marta, etc.) with CREA srl. Three-year contract on the whole Italian territory. In progress.

Tenders & Architectural Competitions

- 1999 International design competition "100% Rubber Design Competition". (**Mentioned**)
- 1999 International design competition "Core77 HeavyWeight Design Competition".
- 1999 National architectural competition for a spatial plan of a square (piazza Centrale) in Borello (FC), Italy (**2° prize**), with arch. E.Rambelli
- 2000/2002 Technical Staff Coordinator for International UNESCO competition in 2 phases "Shelters for five churches in Lalibela, Ethiopia" for Teprin Associati with prof. eng. M. Majowiecki. (**1° prize**). Built.
- 2001 National architectural competition for "Ravenna Port Authority new headquarters", Ravenna, Italy (**2° prize**), with arch. E.Rambelli, eng. G.Bonini, arch. F.Muti.
- 2001 National architectural competition for a "Renewal of Pianoro urban city centre", Pianoro, Bologna, Italy (**3° prize**) Group leader, with eng. F. Fulvi
- 2001 National architectural competition for "Ristrutturazione ed ampliamento of Engineer Faculty in Ferrara" Group leader, with eng. F. Fulvi
- 2002 National architectural competition for a "New building in Bertati square in Martellago, Venice" (**1° prize**) Group leader, with eng. F. Fulvi.
- 2003 National architectural competition for "ALER Varese new headquarters" - Group leader.

- 2004 International architectural competition "Planning of external spaces, auditorium, services premises (restaurant, cafeteria, library and mediatheque in Hi-School Campus in Schio, Vicenza, Italy)" Group leader, with eng. F. Fulvi, eng. C. Marchini e ph.d. E. Gabellini.
- 2004 National architectural competition for "Reuse & refurbishment of the main pier (molo Guardiano) in Ravenna, Italy" Group leader, with Arch. C. Cirolli.
- 2004 International architectural competition "Concurso de ideas sobre la ordenacion urbanistica del la franja litoral de la ciudad de Las Palmas de Gran Canaria (Spain)." Group leader, with Arch. C. Cirolli.
- 2005 National architectural competition for "Renovation of the central area aka "Plan-tree Isle" of Bellaria Igea Marina" Bellaria, Rimini, Italy. Group leader, with Arch. C. Cirolli and landscape expert G. Orselli. - (1° prize).
- 2004 International architectural competition for a "Province of Arezzo new headquarter offices", Arezzo, Italy. Group leader, with arch. C. Cirolli, eng. D. Leopardi, eng. W. Dosi e landscape expert G. Orselli - (6° prize, over 157 participants).
- 2005 National architectural competition "Renovation of the formerly Stadium area in Coriano." Coriano, Rimini, Italy. Group leader, with arch. C. Cirolli, CREA S.r.l. e landscape expert G. Orselli.
- 2005 International architectural competition "Transformation of the urban site of the main post office in Modica." Modica, Ragusa, Italy. UNESCO site. Group leader with arch. C. Cirolli, CREA S.r.l. - (mentioned).
- 2005 National architectural competition "External design for a supermarket in Milan, GS supermarket" Milan, Italy. With arch. C. Cirolli as group leader.
- 2005 Juror in international architectural competition for "Urbanistic and architectonic requalification and renovation of Ancient Prison's Square (Piazza delle Antiche Carceri) in Ravenna" Ravenna, Italy.
- 2006 National architectural competition for "Requalification of Remediation Consortium of Central Romagna Area Headquarters in Ravenna." Ravenna, Italy. Group leader, with arch. C. Cirolli, CREA S.r.l. e landscape expert G. Orselli. - (1° prize ex-aequo).
- 2006 International planning competition for "Professional works for Detailed Plan of Strategic Area n.6 in Palazzolo sull'Oglio" Palazzolo sull'Oglio, Brescia, Italy. Group leader, with arch. C. Cirolli and CREA S.r.l. - (6° prize).
- 2006 International architectural selection for "urbanistic planning works for Nautic Port area in Ravenna." Ravenna, Italy. With Politecnica Società di Ingegneria srl (group leader), Crea s.r.l., Interprogetti s.r.l., arch. C. Cirolli.
- 2006 International architectural competitions in two phases "Two competitions for San Cristoforo Sud in Catania" Catania, Italy. Group leader, with arch. C. Cirolli, CREA S.r.l. and landscape expert G. Orselli. - (mentioned both)
- 2007 International architectural competition for "A bridge over Pertusillo Lake" Potenza, Italy. Group leader, with arch. C. Cirolli, eng. A. Erioli, eng. F. Santarosa, eng. D. Insinga, CREA S.r.l. and landscape expert G. Orselli.
- 2007 International architectural competition "Small railways stations, for RFI Rete Ferroviaria Italiana – Italian Railways Company" 2000 small railway stations all over Italy. Group leader, with arch. C. Cirolli, eng. A. Erioli, CREA S.r.l. and landscape expert G. Orselli. - (2° prize).
- 2007 International architectural competition for the "New Italian Red Cross headquarters in Pesaro", Peasro, Italy. Group leader, with arch. C. Cirolli, 3TI Progetti Italia srl, CREA S.r.l., eng. P. Falcioni and landscape expert G. Orselli. - (selected) -
- 2008 National architectural competition for "A possible detention-jail complex of buildings for 1000 people, ACEN Campania", all over Campania region, Italy. With arch. M. Fabbriatore (group leader), arch. C. Cirolli, 3TI Progetti Italia srl, CREA S.r.l.

- 2008 International architectural competition "Experimental buildings for social purpose, low environmental impact, ATER Rovigo." Rovigo, Italy. Group leader, with arch. C. Cirolli, 3TI Progetti Italia srl, Igeam S.r.l.
- 2008 International architectural competition "Out of the Tunnel, SITAF Torino: mitigation of the visual and environmental aspects of A32 Highway in Alta Valle di Susa". Group leader, with arch. C. Cirolli, 3TI Progetti Italia srl, CREA S.r.l., arch. R. Bacchilega e landscape expert G. Orselli.
- 2008 International architectural selection for "Structural and architectonic restoration and reuse of a theatre (Teatro Mentore)" Santa Sofia, Forli-Cesena, Italy. With arch. Marina Foschi, 3TI Italia srl, Crea s.r.l.
- 2008 International architectural restricted competition for "Cultural center, library and civic auditorium in Altoetting, Germany." With arch. C. Cirolli, 3TI Progetti Italia srl. – In progress-

Collaborations

- 1998/2001 Collaboration with Teprin Associated Architects in Ravenna (Sarti+Baldisserrri+Aymonino) concerning several urbanistic and architectural projects. Among them: Parco di Teodorico (Ravenna), with prof. arch. Boris Podrecca; residential premises in via Perilli (Ravenna); renewal of an ancient complex of streets in Santarcangelo (Rimini), and others.
- 2000/2002 Collaboration with CREA srl as Technical Staff for the safety plan during planning phases of the new Court of Justice in Firenze, 1st part. (total amount of works: € 64.557.000).
- 2003/2004 Collaboration with CREA srl as Technical Staff for the safety plan during planning and building phases of the new Court of Justice in Firenze, 2nd part. (total amount of works: € 64.557.000).
- 2004/2008 Project manager (for architectonic, civil and structural plans) in safety plans for several enlargements of industrial/working buildings for ENI S.p.A., Great Lakes S.p.a., EniPower S.p.a., Hera S.p.a., Ecofuel S.p.a., Avio S.p.a., Port Authority of Ravenna.
- 2007 Lessons at IAL Campus Emilia Romagna, Cervia, Ravenna, Italy, "Renewal and Refurbishment of Restaurants and Hotels: latest design and architecture trends, planning elements" course, directed to HoReCa managers and Investors, 15 hours.
- 2007 Yacht light design consultant for Quick Marine Lighting srl
- 2008 Technical and commercial partnership with 3TI PROGETTI ITALIA s.r.l., technical multidisciplinary engineering company based in Rome with worldwide activities (www.3tiprogetti.com, operating since 1991 in infrastructures, buildings, plants, supervision and safety fields).

Teaching & University

- 1999/2002 Assistant professor at Dipartimento di Architettura e Pianificazione Territoriale at University of Bologna, Engineer Faculty, Prof. Eng. G. Praderio, Courses of Architecture and Architectural Composition II and III.
- 2002/2008 Professor at Dipartimento di Architettura e Pianificazione Territoriale at University of Bologna, Faculty of Engineer and Architecture, Course of Architecture and Architectural Composition III and workshops.
- 2007 Assistant professor at Dipartimento di Architettura e Pianificazione Territoriale at University of Bologna, Ravenna branch, Engineer Faculty, Prof. R. Teneggi, Course of Elements of Architecture.
- 2006 Development and organization of the exhibition in Urban Center of Ravenna "Plans for urban sewing in Ravenna: projects for former ANIC area in Ravenna, made by the students of the Architecture and Architectural Composition III course 2004-2005", and publication (G. Praderio + S. Dosi + A. Erioli). With compliments of Ravenna Municipality, Provincia di Ravenna, Engineers society of Ravenna.

- 2006 Development and organization of the exhibition in Brisighella townhall (palazzo Maghinardo), Ravenna "Plans for requalification and renewal of the town of Brisighella, Ravenna: projects made by the students of the Architecture and Architectural Composition III course 2005-2006". With compliments of Brisighella Municipality, Provincia di Ravenna, Engineers society of Ravenna.
- 2007 Development and organization of the exhibition in Tuzla (Bosnia), and Ravenna (Italy) "Now planning in: Tuzla (BiH). Projects of requalification and renewal of the city of Tuzla, made by the students of the Architecture and Architectural Composition III course 2006-2007". With compliments of Tuzla Municipality, Provincia di Ravenna, Engineers society of Ravenna, Architects society of Ravenna.
